DIRECTOR NOMINEE INFORMATION

WHY I WISH TO SERVE ON THE BOARD:

EXAMPLES	<p>High Plains Farm Credit lent me the startup capital I needed as a young farmer and supported my increased borrowing needs each time I expanded over the ensuing years. It then provided me with the continuing education that was critical both to my operational success and my succession planning. Additionally, it let me share in its profitability through the patronage program. I want to make sure that this vision remains intact for future generations.</p>	<p>My first term on the board was a time when we faced some monumental decisions including the effects of a financial crisis, the selection of a new CEO and the enhancement of our commitment to returning value to our borrowers through a strengthened patronage program. These experiences along with the associated travels and director training have greatly broadened my perspective on agriculture. I look forward to using that knowledge to meet the challenges of the next three years.</p>
	<p>It is a great honor to be considered to serve on the High Plains Farm Credit Board of Directors and have an opportunity to help contribute to the sustainability and success of rural America and U.S. agriculture. In addition, it would be a privilege to utilize some of my past experience and opportunities to help make a difference in the success and future of American agriculture.</p>	<p>I have served on the Nominating Committee before and realize the importance of our cooperative. Local leadership and control is essential for a cooperative to be successful. It is a privilege to be asked to run for the Board. If elected, I will do my best to help High Plains Farm Credit continue to provide dependable credit and other value-added financial services to agriculture.</p>
